**1000°F - Duralco 201SP**

- **No Galling ! No Pitting ! No Seizing !**

Duralco 201SP combines the corrosion resistance of Aluminum with the high temperature protection of Cotronics’ specialty silicone binders to form a 1000°F protective coating.

Easy to use. Just shake, spray and dry.

Duralco 201SP cures at room temperature to form an protective coating with excellent chemical, corrosion, solvent and high temperature resistance.

Duralco 201SP fights corrosion to 1000°F.

It is ideal for coating high temperature equipment, pipes, stacks, boilers, heat exchanges, furnaces, etc.

Available in convenient to use 12 oz. spray cans. Just one can covers up to 30 square feet of metal.

**1200°F - Duralco 6105**

**Stainless Brush on Coating**

The corrosion resistance of Stainless Steel is now available in an easy to use, brush on coating.

Easy to use. Just re-mix, apply directly to clean surfaces and cure at room temperature. 6105 will form a continuous layer of stainless steel and protect the underlying metallic surfaces up to 1200°F.

Duralco 6105 Brush on Coating is resistant to most chemicals and solvents.

Commonly used for coating high temp. equipment, pipes, stacks, boilers, furnaces.

Duralco 6105, 1200°F Stainless Steel Coating is ideal for large volume and production applications.

**2400°F - Duralco R450 Anti-Seize**

**No Galling ! No Pitting ! No Seizing !**

R-450 Anti-Seize prevents metal to metal contact and eliminates failures often caused by corrosion strong acids, alkalis and abrasion.

Ideal thread lubricant for steel to stainless, brass to steel and dissimilar materials.

Allows for easy movement and disassembly.

Use in power plants, chemical facilities, oil refineries, automotive, appliance, aerospace, etc.
